

**Beautiful
People**

Because our dreams matter

Beautiful People invites you to join us in sharing our dream of a world in which we are one loving family, with every dream a possibility.

No amount is too small to invest in the dreams that become our future!

Beautiful People was launched in 2006 to support at-risk teenage girls. Built upon the belief that “we are a relationship, not a programme”, our mandate continues to evolve with the needs of our communities.

From just 1 befriender programme under Beyond Social Services in 2006, we now offer 9 diverse mentoring programmes, helping a wide range of communities including –

- teenage girls and boys in homes
- children from abusive families
- inmates in Changi Women’s Prison, and
- young families

We believe these young people have the power to make the dreams of the next generation possible, breaking a cycle of poverty, non-education, and in many instances emotional and physical abuse.

Our efforts would not be possible without the generous support of our donors. We ask for your continued support in making the dreams of our beneficiaries a reality, helping to impact many more lives.

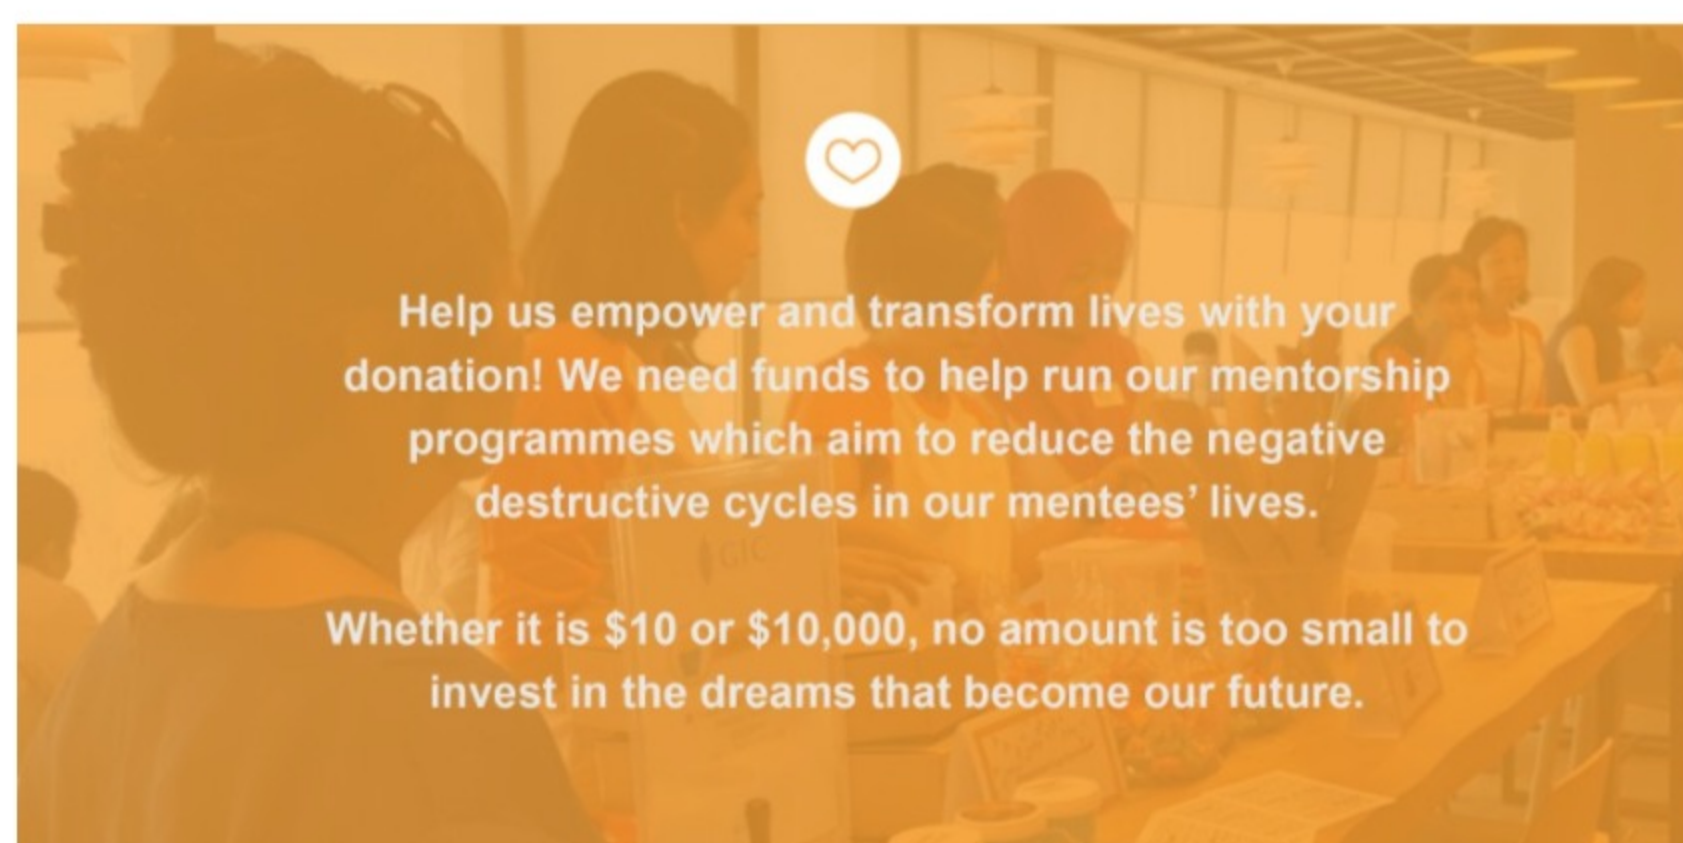

Beautiful People journeys with mentees to not just discover their dreams, but to empower them to do the hard work of bringing their dreams to reality. We support mentees in realising their educational and other aspirations, both through our scholarship scheme, and by supporting them in raising their own funds and resources.

Your donation will go directly to our mentorship programmes with our mentees in residential homes and the women’s prison, as well as young families and female ex-offenders.

You may also learn more about us at www.beautifulpeople.org.sg.

We thank you for your kind consideration of our movement!

DONATE NOW!

Help us empower and transform lives with your donation! We need funds to help run our mentorship programmes which aim to reduce the negative destructive cycles in our mentees’ lives.

Whether it is \$10 or \$10,000, no amount is too small to invest in the dreams that become our future.
