

A ride in a Grab hitch ride was what led Kanitha Jagatheson to volunteer at Beautiful People. As a mentor with Beautiful People's prison programme, [Free for Good](#), Kanitha has learnt how having a team to hold one accountable to one's goals goes a long way. No one in the 'family' – whether mentor or mentee – is ever truly alone. Kanitha shares that her best achievement would be to see all her mentees break through and pay-it-forward one day.

At Beautiful People, we have many mentors like Kanitha who believe in the positive changes mentoring can bring. Kanitha's story is but one out of hundreds of our mentors in the Beautiful People family.

Over the next few months, our **'Meet The Beautiful People Family'** series will provide you with a chance to get to know some of our mentors better. Featured on our social media pages, this series will shed light on how our mentors first got to know about Beautiful People, share the experiences of their mentoring relationships and what they have learnt from their journeys.
